Specializing in above ground industrial-sized steel tanks and industrial/heavy-civil construction. Each project will be superior quality, on schedule, and within budget. T BAILEY has a long history of superior quality field erected fuel and water steel tanks in the Pacific Northwest. Made of surgical stainless steel for the best in safety and hygiene, this urethral insertable device is 5.75 inches long with a maximum insertable length of 5.5 inches to the round end ball. Each of the 'balls/bumps' is approx. .25 inch in diameter and expands from a shaft width of just 1/8 inch. Made of surgical stainless steel for the best in safety and hygiene, this urethral insertable device is 5.75 inches long with a maximum insertable length of 5.5 inches to the round end ball. Each of the 'balls/bumps' is approx. .25 inch in diameter and expands from a shaft width of just 1/8 inch. Specializing in above ground industrial-sized steel tanks and industrial/heavy-civil construction. Each project will be superior quality, on schedule, and within budget.
