Hey y'all, I have a 2012 Acer TC-105 prebuild, and I am running into a few problems identifying what certain headers do on the motherboard. Please check your tracking number using the couriers website as appropriate. However please contact us before arrival so we can get the goods ready for you. We only offer signed for postal services. Thank you so much, Garde. There is a reason we use quality boxes and anti-static bags. Please ensure items are returned in these if applicable. Please contact us before opening a case with eBay. PCBIZ cannot be held liable for any customs import duties. If you guys could help me, it would be a life saver. Orders placed after 3pm on Friday will be despatched on Monday. We currently accept PayPal via eBay or cash/card on collection. EU ORDERS : FROM JANUARY 1ST 2021 PLEASE TAKE NOTE, YOUR ITEMS MAY BE SUBJECT TO CUSTOMS AND IMPORT DUTIES Collection in person is welcome (and free) from our trade counter. We provide returns shipping labels on faulty goods in locations where our couriers cover; we do not cover the return costs of goods that are tested and do not have the stated fault in the RMA. In reality, I just need a schematic of what each of the headers do on my motherboard, (It is an Acer AAHD3-VC). All payments must be clear before we will despatch any goods.
